AFC FUNDING UPDATE

Following the annual review of the CITB funding plans for 2021/2 there will be **NO** additional funding given to the Training Groups for this year.

This will affect our Training Group very little, and we will still be able support our members for a few months to come. We are also looking at other ways to fund the group that will allow us to become more self-sufficient. If anyone has any ideas, then please feel free to contact me to discuss your thoughts in more detail.

This situation with CITB is not permanent and will be reviewed at the end of March 2022 for the following year. All the Training Groups will still be looking to support their members as much as they can, and I will continue to keep you updated on any additional funding or discounts as they come up.

Courses can be done either in the classroom or remotely and can be booked through Adele with one of our approved providers. Please e-mail adele@actionforconstruction.org for more details.
